18" & 21" GAS LOGS

See page 32 for Sizing Chart.

Choose one Log Set below and Burner Accessory Kit on page 3 to make a complete log set. 21" logs use an 18" burner.

Radiant Heat Gas Logs (Use an 18" Burner)

Hargrove's Radiant Heat Vented log series offers much greater heating efficiency than traditional vented gas logs. Our Radiant Riser technology directs heat forward and helps push it into the room, giving radiant heat comparable to vent-free logs.

See *Hearth Accessories* section of this catalog for additional glass media.

Hargrove recommends using between 2"-4" depth of glass on their burner kits. 1 lb of Fireglass and Firebeads cover approximately 20 cubic inches. To determine how much glass is necessary, determine the volume of the area you would like to fill. Formula: Fireplace Width X Fireplace Depth X Glass Depth

Vent Free Gas Logs

NG

All Hargrove vent-free models operate as un-vented room heaters when used in a masonry or manufactured fireplace with the flue damper closed or with vent-free fireplaces listed and approved with Hargrove Products.

Vent-free log sets are dual listed and may be operated as a vent-free set or as a vented log set in a woodburning fireplace with the chimney flue damper fully or partially opened.

See page 31 for complete line of remote controls

Glow-Ramp Vent-Free Gas Logs

The Glow Ramp Burner Series provides three distinct areas of flame: dancing yellow flames in the rear, glowing logs in the center and vibrant glowing embers in the front. All models are heater rated with 99% heat efficiency and include a wood-burning grate appearance. Pair 18" logs with a 18" burner. Pair 24", 30" and 36" logs with a 24" burner.

Select a Log Set and Burner to make a complete log set.

Double-Flame

Vent-Free & Dual Rated Gas Logs

See page 32 for Sizing Chart.

Double-Flame Vent-Free & Vented Gas Logs

This Double-Flame Series allows the use of any log set (Golden Oak or Crescent Hill) with any of the burners. This Series offer value and performance along with hand painted logs for a more realistic look. Millivolt (Remote Ready) or manual control. All models are dual-listed for vent-free and vented applications.

Select a Log Set and Burner to make a complete log set.

Hargrove Burner Descriptions & Size Charts

Burner Descriptions

Manual On/Off Control with Standing Safety Pilot

Manual Hi-Low Flame Adjustment.

Manual On/Off with Standing Safety Pilot & Cool Mount Kit

Cool Mount Kit allows valve to be mounted on side of firebox for concealment and temperature concerns.

Manual Hi-Low Flame Adjustment.

Manual On/Off with Standing Safety Pilot & Hidden Valve Kit

Hidden Valve Kit is mounted on rear right corner of burner for concealment. Manual Hi-Low Flame Adjustment.

Electronic Ignition Pilot with Variable Flame Remote Control & Hidden Valve Kit

Hidden Valve Kit is mounted on rear right corner of burner for concealment. Manual Hi-Low Flame Adjustment.

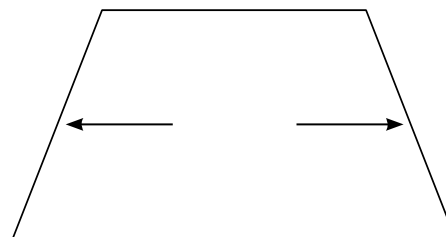

Electronic Ignition Pilot with Variable Flame Remote Control & Concealer

Concealer control cover conceals all components underneath the burner so you will not see bulky controls while viewing the fireplace.

Dimensions (H-Burner, Glass H-Burner, Cool Mount H-Burner, System Four Burner, and Hidden Valve Burner)

Each gas log set requires a minimum 16" front opening height and minimum 16" depth. To determine the largest set that will fit in a fireplace, the width at the center of the fireplace is the critical dimension.

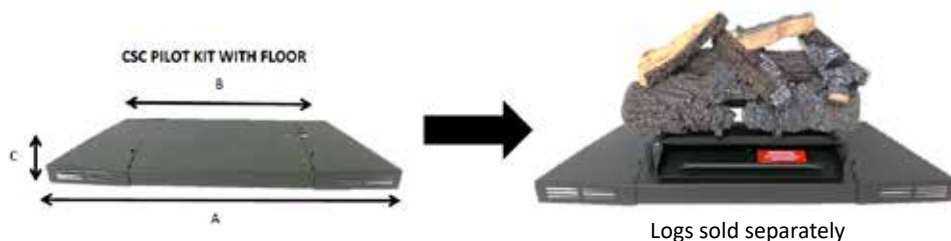

Set Size	Minimum Center Width	Minimum Front Opening Width	Minimum Depth	Minimum Depth See-Thru	Minimum Height
18"	28"	30"	16"	22"	16"
24"	32"	36"	16"	22"	16"
30"	37"	42"	16"	22"	16"
36"	42"	48"	16"	22"	16"

Concealer Burner Dimensions

The Control System Concealer is a false floor that hides a variable flame electronic ignition system underneath. It stands 2.5" tall and requires a minimum 18" front height opening and minimum 16" depth.

Set Size	Front Width	Back Width	Burner Depth	Minimum Depth
18"	28.75"	17"	12.5"	16"
24"	35.75"	23"	12.5"	16"
30"	40.75"	29"	12.5"	16"
36"	46.75"	35"	12.5"	16"

Vent-Free & Vented Dual Rated Gas Logs

Superior Gas Logs elevate the traditional log and fire presentation to a much higher level. The combination of authentic looking hand-painted logs with a massive fire and ember bed allows you to have it all. Superior vent-free gas logs are 99% heat efficient, operate during a power outage and can be used in a vented application as well (optional damper clamped required).

Millivolt Controlled Models

- Continuous ODS safety pilot with matchless push-button ignition
- Manual on-off and variable high-low flame height control
- Remote control ready to accept an optional hand-held remote

Variable Controlled Models

- Continuous ODS safety pilot with matchless push-button ignition
- Manual on-off and variable high-low flame height control
- Includes remote control with digital display, manual or thermostatic modes and 5 flame height settings

Electronic Ignition Controlled Models

- Fuel saving electronic intermittent ODS safety pilot with battery back-up
- Manual on-off and 2 position high-low flame height control
- Includes remote control with manual or thermostatic modes and 3 flame height settings
